

Clinic@Home™

# BUILDING CLIENT STABILITY AND INDEPENDENCE EVERY DAY

Daily support for clients with complex needs and barriers to care across 35+ counties.

Proactive client monitoring

80%+ appointment attendance

Up to 50% reduction in ER admissions

3+

Daily client engagements

17% improvement in medication adherence

40% of clients with hypertension improve at least one stage

## OUR MODEL: CLINIC@HOME

- ✓ Daily engagement and remote monitoring flags social and health changes before concerns arise.
- ✓ Regular updates on health goals, medication adherence, and social needs detection.
- ✓ Telehealth check-ins with nurses, providers, and therapists between your visits.
- ✓ Medication and appointment reminders built into daily routines to improve adherence.
- ✓ Simplified billing per case manager feedback: just S5165 & S5110/S5115—no T2029.

## ENROLLMENT GUIDELINES

Clinic@Home is often a good fit for those with any of the following:

- ✓ Multiple chronic conditions
- ✓ Functional or mobility limitations
- ✓ Recent ER visits or hospitalizations
- ✓ Barriers to in-person care
- ✓ Desire to live independently in the community
- ✓ Need for ongoing health monitoring & support

## HOW REFERRALS WORK

Identify a client who may benefit from additional in-home support

Submit a referral via phone or at [healthemed.com/refer](http://healthemed.com/refer) with client consent

HealtheMed works alongside existing care teams to begin engagement & support

HealtheMed™
